

Open Position Available

CIVIL PROJECT MANAGER

DENVER, CO

JVA has an opening for an outgoing, passionate and highly motivated Project Manager to join our Civil Engineering team in our downtown Denver office.

JVA is headquartered in beautiful downtown Boulder, Colorado, with a northern office in Fort Collins and mountain office in Winter Park, and we are licensed in 37 states. Since 1956, we have a history of engineering excellence serving architects, owners, and builders on projects throughout the Rocky Mountain region and nationwide.

We have assembled a team of exceptional civil engineers and designers who believe in providing quality services consistent with JVA's corporate philosophy. Our staff of 90 provides a wide range of services on a variety of site work and water/wastewater projects with a large, experienced staff. JVA provides its clients with creative thinking, design sensitivity, cost-effective engineering, and high quality products and service.

JVA is active with U.S. Green Building Council, and many of JVA's engineers are LEED Accredited Professionals.

In Addition to our dedication to ongoing staff training, JVA has become an industry leader by investing in and becoming proficient with the latest design technology applications, including AutoCAD Civil 3D.

Responsibilities

- Promote the delivery of highest quality civil engineering products and services that focus on client satisfaction and new business opportunities
- Work in a vibrant team environment
- Assist in developing company business goals and strategies
- Build strong client relationships

Qualifications

- B.S. in Civil Engineering
- Colorado Professional Engineer license
- Proven track record in growing the business
- Strong leadership skills required
- Experience with private, municipal, recreational and educational projects
- Experience in Colorado with site grading, drainage calculations, utility design, cost estimating, permitting support, and specification preparation
- Strong written and verbal communication skills with client contact experience
- Passion for engineering and service for our clients
- Understanding for Civil 3D and water/flood modeling preferred

STRUCTURAL

CIVIL

ENVIRONMENTAL

Founded in 1956, JVA, Inc. is a 100+ person engineering consulting firm with offices in Boulder, Fort Collins, Winter Park, Glenwood Springs, and Denver, Colorado. We specialize in structural, civil, environmental (water/wastewater), historic preservation, and infrastructure engineering for public and private entities across Colorado. We are employee-owned, offer a competitive benefits package, advocate professional growth, and have long-standing relationships with contractors, architects, developers, professional organizations, and community outreach programs.
