

Open Position Available

ENVIRONMENTAL PROJECT ENGINEER

GLENWOOD SPRINGS, CO

JVA has an opening for an Environmental Project Engineer to join our environmental engineering team in our Glenwood Springs office. We are seeking a highly motivated person with a passion for engineering excellence.

As part of JVA's thriving Environmental Engineering team you will work with mindful, experienced engineers who are devoted to sensible and conscientious problem solving for a wide range of projects across Colorado from rural towns and mountain projects to city infrastructure. We provide the necessary tools, support, and training to assist our employees in providing technically competent, high quality service to clients. Our professional culture values sound judgment, creative thinking, and design sensitivity.

Responsibilities

- Water, wastewater design focus
- Engineering reports and specification preparation
- Involvement with permitting and financial assistance, mechanical and process knowledge
- Flexibility and desire to work on a variety of multiple project is essential
- Construction administration experience

Minimum Qualifications

- 4 to 8 years water and wastewater treatment design
- P.E. License required
- Experience in Colorado preferred

STRUCTURAL

CIVIL

ENVIRONMENTAL

Founded in 1956, JVA, Inc. is a 100+ person engineering consulting firm with offices in Boulder, Fort Collins, Winter Park, Glenwood Springs, and Denver, Colorado. We specialize in structural, civil, environmental (water/wastewater), historic preservation, and infrastructure engineering for public and private entities across Colorado. We are employee-owned, offer a competitive benefits package, advocate professional growth, and have long-standing relationships with contractors, architects, developers, professional organizations, and community outreach programs.
