

Open Position Available

SENIOR CIVIL PROJECT ENGINEER

FORT COLLINS, CO

JVA has an opening for an outgoing, passionate and highly motivated Senior Civil Project Engineer to join our Civil Engineering team in our downtown Fort Collins office.

Responsibilities

- Promote the delivery of highest quality civil engineering products and services that focus on client satisfaction and new business opportunities
- Work in a vibrant team environment
- Assist in developing company business goals and strategies
- Build strong client relationships

Qualifications

- B.S. in Civil Engineering
- 8 plus years' experience in civil engineering and land development design for a wide variety of projects
- Strong leadership skills required
- Experience with private, municipal, recreational and educational projects
- Experience in Colorado with site grading, drainage calculations, utility design, cost estimating, permitting support, and specification preparation
- Strong written and verbal communication skills with client contact experience
- Passion for engineering and service for our clients
- Understanding for Civil 3D and water/flood modeling preferred

JVA is headquartered in beautiful downtown Boulder, Colorado, with a northern office in downtown Fort Collins and mountain offices in Winter Park, Glenwood Springs and Denver. Since 1956, we have a history of engineering excellence serving architects, owners, and builders on projects throughout the Rocky Mountain region and nationwide.

We have assembled a team of exceptional civil engineers and designers who believe in providing quality services consistent with JVA's corporate philosophy. Our staff of 100 + provides a wide range of services on a variety of site work and water/wastewater projects with a large, experienced staff. JVA provides its clients with creative thinking, design sensitivity, cost-effective engineering, and high-quality products and service.

In addition to our dedication to ongoing staff training, JVA has become an industry leader by investing in and becoming proficient with the latest design technology applications, including AutoCAD Civil 3D.

STRUCTURAL

CIVIL

ENVIRONMENTAL

Founded in 1956, JVA, Inc. is a 100+ person engineering consulting firm with offices in Boulder, Fort Collins, Winter Park, Glenwood Springs, and Denver, Colorado. We specialize in structural, civil, environmental (water/wastewater), historic preservation, and infrastructure engineering for public and private entities across Colorado. We are employee-owned, offer a competitive benefits package, advocate professional growth, and have long-standing relationships with contractors, architects, developers, professional organizations, and community outreach programs.
