

Open Position Available

ENVIRONMENTAL DESIGN ENGINEER BOULDER, CO

JVA has an opening for an experienced, creative and highly motivated person to join our Environmental Engineering team in our Boulder office. JVA is headquartered in beautiful downtown Boulder, Colorado, with an office in downtown Denver, a northern office in Fort Collins and mountain offices in Winter Park and Glenwood Springs. We are licensed in 42 states. Since 1956, we have a history of engineering excellence serving towns, cities, special districts, architects, owners, and builders on projects throughout the Rocky Mountain region and nationwide.

We have assembled a team of exceptional civil engineers and designers who believe in providing quality services consistent with JVA's corporate philosophy. Our staff provides a wide range of services including water/wastewater and infrastructure, site work, and structural projects with a large, experienced staff. JVA provides its clients with creative thinking, design sensitivity, cost-effective engineering, and high quality products and service.

JVA is active with AWWA, RMWEA, U.S. Green Building Council, DBIA and many of JVA's engineers are LEED Accredited Professionals.

In addition to our dedication to ongoing staff training, JVA has become an industry leader by investing in and becoming proficient with the latest design technology applications, including AutoCAD Plant 3D, Civil 3D, and Revit.

Qualifications

- B.S. in Environmental or Civil Engineering from an accredited institution
- 0-4 years Water & Wastewater treatment design experience for small to medium size municipalities and special districts
